

RED GOLD

a felt soul media production

At the headwaters of the two largest remaining sockeye salmon runs on the planet, mining companies propose to develop what could be the largest open-pit gold and copper mine in North America, perhaps the world.

I request the State of Alaska and the U.S. Bureau of Land Management act now to protect Bristol Bay's world-renowned fishery resources by rejecting mine plans and permit applications that would withdraw water, construct dams, and create and store massive quantities of toxic waste in the Bristol Bay watershed.

I support the creation of a refuge for fisheries in Bristol Bay.
